Dear Carlos,

Thank you, Thank you, Thank you for entertaining at our annual conference aboard the USS Hornet on April 30, 2005.

I don't have enough adjectives to describe how great your band is, but I'll try!
Fantastic.....professional....awesome....powerful....entertaining....versatile....varied.....fabulous.....
indecible.....ORGANIZED

From the first time we spoke on the phone I knew I had found my entertainment for the evening. When I heard your CD I was so impressed but that was nothing compared with hearing and seeing Silicon Vibe perform live!

You are truly a genius for bringing these 15 exceptionally talented people together. One of our board members asked if we could hire your band for our conference in Miami next year!

Everyone loved the music choices, people were dancing in the buffet lines! Your idea of 40's tunes before and during dinner set the mood for the show you put on right after dinner and then swung right into motown and current dance music to finish our perfect evening.

Your organizational skills made the whole evening so easy for me. I was having dinner and looked down at my watch and said to the person next to me that our Ex.Dir would get up to speak in 3 minutes, he asked me how I knew, I told him because of the time and the song the band is playing! (He too was very impressed!)

Please feel free to have any potential clients call me directly so that I may tell them in person how much I recommend you for any event they might be planning.

Sincerely,

Gayle Alexander
